Repositories/Servers

In addition to searching for ESI on its own servers using the search terms and searching for hard copy documents in its possession, custody, or control that are responsive to Servicios Funerarios' document requests, Advent shall search for ESI using the search terms on the servers of, and search for hard copy documents that are responsive to Servicios Funerarios' document requests in the possession, custody, or control of, Advent International PE Advisors S.C., the Twibel entities, the Twilux entities, each fund that had a direct or indirect ownership or investment interest in Gayosso, and Grupo Farmaceutico Somar, S.A.P.I. de C.V.

In addition, please let us know whether Advent (or its affiliates) maintains a server that contains Gayosso's pre-sale ESI.

Custodian Searches

In addition to searching the repositories and servers identified in the prior paragraph, Advent will search using the search terms the ESI maintained by each custodian on any other server, device, application, or repository that may reasonably be expected to contain responsive data.

Search Terms

- Search terms should be run without reference to capitalization.
- Search terms in quotations will be run together as a phrase.
- A slash followed by a number means that the terms are within the specified number of words from each other. For example, "/20" means "within 20 words."
- "!" denotes a multiple character wildcard search.
- Searches should be conducted in a plain text format, such that search hit results are returned regardless of the presence (or non-presence) of diacritics, such as but not limited to, accents, tildes, or diaeresis.
- The search term "Gayosso" shall be applied in a manner that would return emails where the domain name gayosso.com appears as part of the email address of a sender, recipient, or cc.

Reservation

This is Servicios Funerarios' initial search protocol and we reserve all rights to seek additional custodians and sources of information and add search terms as discovery progresses.
